Ravi Khokle

Full Stack Developer (MERN)

Pune, Maharashtra, India +91 7218014410 ravikhokle1@gmail.com

github.com/ravikhokle | linkedin.com/in/ravikhokle | ravikhokle.dev

Professional Summary

Full Stack Developer specializing in the MERN stack with experience building scalable web applications, secure RESTful APIs, authentication systems, and cloud-deployed solutions. Proficient in React.js, Next.js, Node.js, Express.js, and MongoDB, with a strong focus on clean architecture, performance optimization, and user-centric software development.

Technical Skills

- **Frontend:** React.js, Next.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Google OAuth, EJS
- **Databases:** MongoDB, MongoDB Atlas, MySQL
- **Cloud & DevOps:** AWS EC2, AWS Lambda, AWS VPC, Docker, Nginx, PM2, Vercel, Render, Cloudinary
- **Programming Languages:** JavaScript, TypeScript, Java, C++, Python
- **Tools:** Git, GitHub, Linux, Postman

Experience

Backend Developer Intern **Jan 2025 – Mar 2025**

Totally Optimised Solutions

- Developed RESTful APIs for Product Filters, Coupons, Inbox, and Address Management using Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based authorization to secure protected API endpoints.
- Built reusable backend modules following RESTful API design principles for e-commerce applications.
- Tested and documented APIs using Postman while collaborating with frontend developers to ensure seamless integration.

Projects

InternshipYatra – Full Stack Internship Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Google OAuth, Cloudinary

- Developed a full-stack internship platform connecting students and recruiters through dedicated dashboards.
- Implemented JWT authentication, Google OAuth, OTP-based email verification, refresh token authentication, and secure RESTful APIs.
- Built internship search with filtering, sorting, pagination, resume uploads, public profiles, and application tracking.
- Deployed the application using Vercel, Render, MongoDB Atlas, and Cloudinary.

Social Saver Bot (Hackathon Project)

Tech Stack: Next.js, Node.js, Express.js, MongoDB, Twilio API, Cohere AI

- Developed a WhatsApp bot to automatically save and organize social media links.
- Integrated the Twilio API and Cohere AI for intelligent content categorization.
- Built a searchable dashboard for efficient content management and retrieval.

Education

Master of Computer Applications (MCA) **Aug 2025 – Present**

Modern College of Engineering, Pune. CGPA: 6.59

Bachelor of Computer Applications (BCA) **Aug 2022 – May 2025**

Swami Ramanand Teerth Marathwada University, Nanded. CGPA: 7.50

Achievements & Certifications

- Finalist – Odoo $\times$ SPIT Hackathon 2025
- Finalist – Navonmesh 2026 Hackathon
- Full-Stack Web Development Certification – Udemy
